**CRT TESTER**

The Model 480 and 490 CRT Testers have been updated and improved. Your unit uses a new case design and a new assortment of CRT adapters. The rugged polyethylene case features a pin-type hinge and replaceable latches and handle. The tester now includes an assortment of three CRT adapters that will fit more than 80% of the CRT types used in recent color TV sets and computer monitors. Adapters CR-23, CR-24, and CR-31 are supplied.
